

Capital Region Sustainability Plan DRAFT Executive Committee: Vision Statements

Well-developed multi-modal infrastructure

Vibrant and restored urban centers

Communities across the region have good access to safe, healthy food (“food security”), and the region enjoys a well-developed agricultural economy

Establish an intermodal transportation system that connects the entire region to the center hub (Albany)

A robust economy with a reputation for sustainability that is created through contributions from both the private and public sector

An abundance of job opportunities

More diverse labor force and job opportunities with less dependency on public jobs (i.e., a good balance of public sector and private sector jobs)

Improving and innovating economic development while preserving rural and natural resource assets
